

INDUSTRIAL SUPPLIES

ARCHITECTURAL AIR CURTAINS

Architectural Air Curtains are designed to be ascetically pleasing while providing high-quality environment separation and insect control.

COMMERCIAL AIR CURTAINS

Commercial Air Curtains are designed to meet the functional needs of the application providing high-quality environment separation and insect control.

HAZARDOUS LOCATION AIR CURTAINS

Hazardous Location Air Curtains are designed to keep temperatures stable and to keep flying insects out in applications where dust or gases may create a hazardous situation.

INDUSTRIAL AIR CURTAINS

Industrial Air Curtains are designed to keep temperatures stable and flying insects out when the doors are open.

SANITATION CERTIFIED AIR CURTAINS

Sanitation Air Curtains are designed for applications requiring flying insect control for food service standards and health department requirements.

ASH & TRASH RECEPTACLES

Ash & Trash Receptacles are convenient and aesthetic two-in-one solutions designed for entrance ways and parking lots.

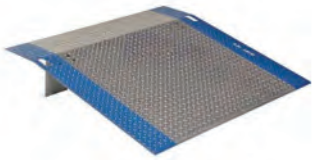

FREE STANDING ASHTRAYS

Free Standing Ashtrays can easily be placed anywhere there is a need for an ash receptacle including parking lots, garages, sidewalks, picnic areas, and entrance ways.

WALL MOUNTED ASHTRAYS

Wall Mounted Ashtrays are compact solutions that can be directly mounted to any existing structure including building walls, fence posts, and bus shelters.

ALUMINUM DOCK PLATES

Aluminum Dock Plates are heavy duty solutions designed to provide a smooth transition from trailer to dock for large and heavy loads.

PLASTIC DOCK PLATES

Plastic Dock Plates are light-weight solutions designed for manual traffic and are easy to transport in the back of a truck or trailer.

BLOWER FANS

Blower Fans are large, heavy-duty fans designed for maintenance-free operations on job sites and in industrial facilities.

LOADING DOCK FANS

Loading Dock Fans are compact solutions designed to provide airflow in hard to reach loading areas and van trailers.

OFFICE FANS

Office Fans are economical solutions designed to provide spot cooling in small offices or individual cubicles.

PEDESTAL FANS

Pedestal Fans are freestanding solutions designed for easy transportation and fast setup on job sites or in industrial facilities.

WALL FANS

Wall Fans are cost-effective solutions designed to be mounted on a building wall or column for isle way and general cooling in industrial facilities.

WASHDOWN FANS

Washdown Fans are built with corrosion resistant materials and specifically designed to be used in wet and wash down environments.

WORKSTATION FANS

Workstation Fans are cost effective solutions designed to be mounted on a building wall, roof truss, or column to provide targeted cooling in a workstation.

DESKSIDE WASTEBASKETS

Deskside Wastebaskets are compact and cost effective solutions designed for use in office buildings, class rooms, and industrial facilities.

HANDS FREE WASTE CONTAINERS

Hands Free Waste Containers are foot pedal operated and are designed for applications requiring increased sanitary needs.

MOBILE WASTE CONTAINERS

Mobile Waste Containers are large wheeled solutions designed for easy transportation on job sites and in industrial facilities.

PLASTIC INDOOR CONTAINERS

Plastic Indoor Containers are designed for everyday use for applications that do not require flame or heat resistant receptacles.

PLASTIC OUTDOOR CONAINTERS

Plastic Outdoor Containers are heavy duty solutions designed to hold large amounts of garbage and withstand harsh environments.

RECYCLING CONTAINERS

Recycling Containers are easy to identify and are specifically designed for safe and responsible disposal of recycling materials.

STEEL INDOOR CONTAINERS

Steel Indoor Containers are heavy duty indoor solutions designed for harsh environments and applications requiring flame or heat resistant receptacles.

STEEL OUTDOOR CONTAINERS

Steel Outdoor Containers are heavy duty solutions designed for use in harsh outdoor environments including high winds.

ALUMINUM ROLLING LADDERS

Aluminum Rolling Ladders are heavy duty, lightweight solutions designed for applications requiring easy transportation.

STAINLESS STEEL ROLLING LADDERS

Stainless Steel Rolling Ladders are heavy duty and corrosion resistant solutions designed for applications where water or chemicals are present.

STEEL ROLLING LADDERS

Steel Rolling Ladders are cost-effective solutions designed for almost any application including large capacities.

STEP LADDERS

Step Ladders are cost-effective, lightweight solutions designed for infrequent use on job sites or in industrial facilities.

CRANE LIGHTING

Crane Lighting solutions are designed specifically to be installed on Overhead Cranes to provide additional lighting in the area where the crane is being used.

INDUSTRIAL LIGHTING

Industrial lighting solutions are designed for long-lasting, maintenance free operations in industrial facilities and warehouses.

OFFICE LIGHTING

Office Lighting solutions are designed to provide high-quality, low cost, and aesthetically pleasing light in office buildings and shopping centers.

PERMANENT DOCK LIFTS

Permanent Dock Lifts are convenient adjustable dock height solutions designed for permanent installation and frequent use.

PORTABLE DOCK LIFTS

Portable Dock Lifts are cost-effective adjustable dock height solutions designed to be moved and used across multiple dock locations or job sites.

DRUG STORAGE CAGES

Drug Storage Cages are designed to meet the US Drug Enforcement Administration's requirements for physical security of Schedule III through IV controlled substances.

FREESTANDING OFFICE PARTITIONS

Freestanding Office Partitions are designed for semi-permanent installation in office buildings to provide privacy and sound control.

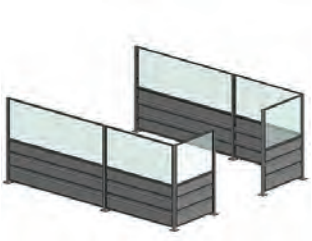

MOBILE OFFICE PARTITIONS

Mobile Office Partitions are easy to transport and are designed for temporary use in office buildings, conference centers, and schools.

SHEET METAL AND LEXAN PARTITIONS

Sheet Metal and Lexan Partitions are heavy-duty, semi-transparent partitions designed for use in industrial facilities.

SHEET METAL PARTITIONS

Sheet Metal Partitions are heavy duty partitions that provide complete privacy and are designed for use in industrial facilities.

WIRE MESH PARTITIONS

Wire Mesh Partitions are cost-effective security partition solutions designed to provide secure storage in industrial facilities and office buildings.

DRIVABLE VERTICAL MAST LIFTS

Drivable Vertical Mast Lifts are compact electrically powered solutions designed for maintenance use in industrial facilities and office buildings.

MOBILE VERTICAL LIFTS

Mobile Vertical Lifts are cost-effective mobile solutions designed for infrequent maintenance use in industrial facilities, office buildings, or on job sites.

STOCKER LIFTS

Stocker Lifts are ergonomic solutions designed for easy transportation of product or components to or from racking.

DEX

The Amigo Dex is a fast and safe solution designed for personnel transportation throughout an industrial facility or warehouse.

DEX PRO

The Amigo Dex Pro is a fast and safe solution designed for personnel and parts/equipment transportation throughout an industrial facility or warehouse.

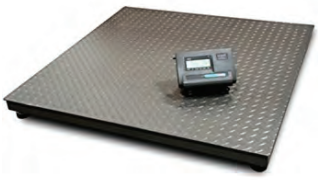

BENCH SCALES

Bench Sales are compact solutions designed for lightweight tabletop applications in industrial facilities and laboratories.

CRANE SCALES

Crane Scales are designed to be used on overhead cranes to suspend and accurately weigh a load for billing, shipping, and other weight verification needs.

PALLET SCALES

Pallet Scales are large, low profile, and heavy-duty scales designed for weighing pallets, drums, and other large items in industrial facilities.

SHIPPING SCALES

Shipping Scales are cost-effective solutions designed to accurately weigh packages for shipping and postage needs.

ICE MELT

Ice Melt is a cost-effective solution designed to melt existing or prevent future ice, increasing safety in parking lots and on sidewalks.

UNIVERSAL SPREADERS

Universal Spreaders are solutions designed to efficiently and evenly spread ice melt on large parking lots or long sidewalks.

SNOW SHOVELS

Snow Shovels are solutions designed for fast and convenient removal of small amounts of snow from sidewalks and in front of doorways.

AUTOMOTIVE WORK BENCHES

Automotive Work Benches are heavy duty steel workbenches designed for use by the automotive industry.

HEAVY DUTY WORK BENCHES

Heavy Duty Work Benches are designed for applications requiring additional capacity and rigidity.

LABORATORY WORK BENCHES

Laboratory Work Benches often have stainless steel tops and are designed for use in laboratory environments.

MACHINE TABLES

Machine Tables are heavy duty tables designed to securely support industrial equipment and machinery.

PACKAGING TABLES

Packaging Tables are cost-effective solutions designed for continuous use in shipping and receiving areas.

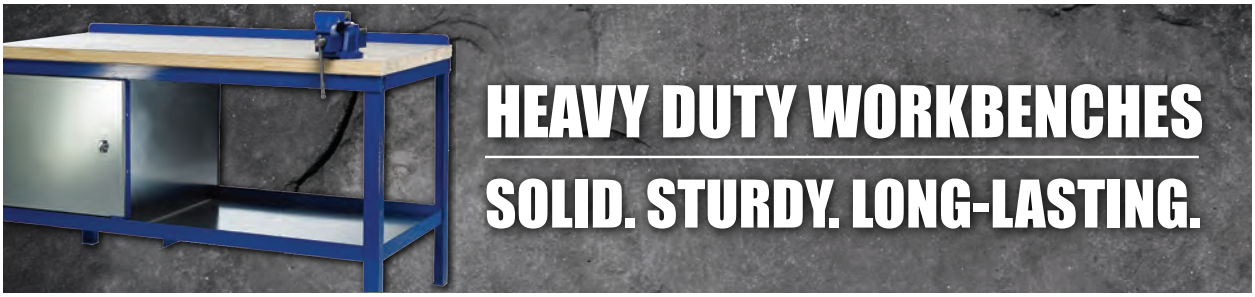

SHOP DESKS

Shop Desks are heavy duty compact desk work areas designed for use in shops and industrial facilities.

WELDING BENCHES

Welding Benches are heavy duty solutions designed for use in fabrication and manufacturing environments.

INDUSTRY LEADING TECHNOLOGY

THE MOST TECHNICALLY ADVANCED MATERIAL HANDLING AND SAFETY SOLUTIONS PROVIDER IN THE UNITED STATES.
